EDUCATION

Maharaja Agrasen Institute of Technology

Bachelor of Technology in Computer Science and Technology

Expected Aug 2028

Rohini, Delhi

Current CGPA : 8.27

Relevant Coursework : Data Structures and Algorithms, Object-Oriented Programming , DBMS (Database Management Systems), Compiler Design, Operating Systems

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS

Web Technologies: React.js, Next.js, Node.js, Express.js, Tailwind CSS

Tools Platforms: Git, GitHub, Postman, MySQL, MongoDB

PROJECTS

Lama AI Chat Application | React 18, Node.js, Express.js, Clerk Auth, MongoDB (Mongoose), ImageKit, Gemini API | [Link](#)

- Developed a full-stack AI Chat Application using React 18, Node.js/Express, MongoDB, and the Google Gemini API (gemini-2.5-flash) supporting real-time response streaming, rich markdown rendering, and image-based multi-modal interactions.
- Crafted a responsive, mobile-first dashboard featuring secure Clerk route guarding to protect private endpoints, custom layout animations with dynamic sidebar transitions, and interactive onboarding animations synchronized with mock messaging avatars.
- Implemented secure user authentication via Clerk integration, image upload/delivery utilizing ImageKit, state management with TanStack Query, and a resilient streaming pipeline featuring fallback models and exponential backoff.

AI Headshot Generator | React 19, Vite, TypeScript, Cloudinary SDK, Tailwind CSS v4, React Dropzone | [Link](#)

- Developed a responsive AI Headshot Generator using React 19, TypeScript, Vite, and the Cloudinary SDK, supporting automatic portrait optimization, generative background replacement, and AI-driven outfit/apparel swaps.
- Implemented intuitive drag-and-drop image uploading via React Dropzone integration, real-time side-by-side comparative previews, and a custom transformation pipeline allowing instant multi-format downloads (JPG, PNG, WEBP) and URL copying.
- Leveraged Cloudinary's Generative AI APIs (Generative Replace and Generative Background Replace) to dynamically transform casual clothing into tailored business attire and swap casual backgrounds with professional office and urban bokeh backdrops.

ACHIEVEMENTS / CERTIFICATIONS

- Participated in [Ace-M Hackathon](#) organized by Shaheed Sukhdev College of Business Studies (SSCBS), collaborating on innovative problem-solving and rapid prototype development.
- Received a Certificate of Appreciation for volunteering at [HackXtract Hackathon](#) 2026, organized by TechXtract, MAIT, in recognition of contributions to event operations and participant engagement
- Successfully completed the GUVI-HCL "Introduction to Data Engineering and Big Data" certification, gaining foundational knowledge of data engineering concepts and big data technologies.
